

**NORTHWEST REGIONAL AIRPORT AUTHORITY
NOTICE OF AVAILABILITY OF A FINAL SUPPLEMENTAL SHORT FORM
ENVIRONMENTAL ASSESSMENT AND FINDING OF NO SIGNIFICANT IMPACT
FOR PROPOSED IMPROVEMENTS
AT
CHERRY CAPITAL AIRPORT, TRAVERSE CITY, MICHIGAN**

Cherry Capital Airport (Airport) has completed final environmental documentation to address the installation of an instrument landing system (ILS) for the Runway 10 approach. The Airport proposes to install the ILS to reduce the need for commercial aircraft to circle, thus reducing delays and cancellations.

The purpose and need of the proposed project is to enhance safety and improve commercial service reliability at TVC. The Airport proposes to install an ILS for the Runway 10 approach, which includes an ILS antenna, localizer, and a localizer shelter on the existing airfield, within limits of the existing Airport property. This installation provides the same approach minimums as the existing Global Positioning System (GPS) Localizer Performance with Vertical (LPV) approach and will reduce the need for commercial aircraft to circle, thus reducing delays and cancellations.

All interested persons are hereby notified of the availability of a Final Supplemental Short Form Environmental Assessment (EA) and Finding of No Significant Impact (FONSI) evaluating potential impacts of the proposed improvements. This project was evaluated and documented as required by the National Environmental Policy Act (NEPA) of 1969. Approval of the FONSI by the Federal Aviation Administration means that the project can now proceed to final design and construction.

A hardcopy of the EA and FONSI is available for review during normal business hours at the Cherry Capital Airport Administrative Office and an electronic version is also available anytime online on the Airport's website until September 5, 2023. Documents can be found at the following locations:

- Hardcopy is available at:
**Cherry Capital Airport
Administrative Office
Terminal Building, 2nd Floor
727 Fly Don't Drive
Traverse City, MI 49649**
- Electronic version is available at:
